Principal's Notes

Dear Families,

We're heading into one of the most exciting weeks of the year at the Academy!

Next Tuesday, 9th December, we'll be hosting our Christmas Fair - a fantastic afternoon of festive fun with stalls, activities, prizes to be won, and even student performances! Raffle tickets are just £1 per strip or 20p per ticket, and there are some amazing prizes up for grabs. Tickets can be purchased on the night or in school on Monday and Tuesday from Mrs Jones, Mrs Ruscoe, or Mrs Smith. All proceeds will go towards our Year 11 Prom, helping us reduce ticket prices for students - your support makes a real difference.

The whole Academy is also taking part in our Christmas Food Donation appeal, collecting items for our local food bank. Students will receive house points for every item donated, so please encourage them to get involved. Your generosity is always greatly appreciated.

As the weather turns colder, please ensure your child comes to school prepared with a coat, hat, gloves, and other warm clothing. We want everyone to stay comfortable and healthy during these winter months.

Finally, we're excited to launch our "10 Days of Christmas" attendance incentive starting Monday! There will be prizes to be won every day in the run-up to Christmas - but remember, your child has to be in school to win. Let's finish the term strong!

Thank you for your continued support, and I look forward to seeing many of you at the Christmas Fair next week.

Warm regards,
Claire Coy

Quality of Education

Curriculum Spotlight – Design and Technology

KS3 - Food Technology - Product Design - Textiles

What students are learning this half term

In each year the students move round three areas of design technology. They complete a 12 week course from each subject. Below is a brief description of what they will learn in each year group and each subject.

Year 7

Food - Year 7 students have been engaged in a unit of study focused on healthy eating and nutrition. The aim of this program is to help students understand the importance of a balanced diet, the role of different nutrients in the body, and how food choices can impact overall health and wellbeing.

Product Design - Students in Product Design have been working on a practical project to design and construct a Block Bot. This activity not only develops creativity and design skills but also emphasizes the importance of safe working practices when using workshop tools and equipment

Textiles - Year 7 students have been exploring the exciting world of textiles design and technology. As part of their learning, they have been introduced to fabric creation and 3D textile techniques, culminating in the design and production of their very own.

Year 8

Food - This project has given Year 8 students valuable experience in adapting recipes to suit personal preferences while enhancing nutritional value. Their work with Garlic Bread, Spaghetti Bolognese, Fajitas, and Chow Mein demonstrates growing independence in the kitchen and a deeper understanding of how food choices contribute to a healthy lifestyle.

Product Design - The sustainable lamp project has given Year 8 students the opportunity to think and act like engineers, combining practical skills with environmental awareness. Their work demonstrates how design and technology can play a vital role in promoting recycling and sustainability, preparing them for future challenges in an eco-conscious world

Textiles - Year 8 students have been working on an exciting textiles project where they design and make a unique cushion inspired by Pop Art. This unit combines creativity with practical skill development, encouraging students to explore bold design ideas while learning a variety of surface pattern techniques.

Year 9

Food - Year 9 students have been developing their understanding of dietary requirements and food allergies through practical cooking lessons. This unit encourages them to think carefully about how food can be adapted to meet individual needs, while still being enjoyable and nutritious.

Product Design - Year 9 students have been extending their skills in Product Design by using more advanced machinery to complete precision work. Their project focuses on creating a tessellation pattern chopping board, combining mathematical design principles with practical workshop skills. The finished product is both functional and creative, giving students something they can proudly take home and use.

Textiles - Year 9 students have been exploring sustainability and environmental issues through their textiles work. This project challenged them to design and make a unique bag that not only demonstrates creativity but also highlights the importance of using sustainable materials and responsible design practices.

How you can Support at Home

Encourage your child to put their **Design and Technology (DT) skills** into practice at home. Whether it's helping out in the kitchen, fixing something with a screwdriver, or even repairing a teddy, they now have the confidence to tackle these tasks independently. They can also use their creativity to design and make thoughtful items, such as a handmade present for someone special.

Education With Character

Education with Character: The Lowry Way

At The Lowry Academy, we believe education goes beyond the classroom. Through enriching experiences, we help students develop the qualities that matter most—confidence, creativity, aspiration, resilience, and respect—our Lowry Values. This week, these values have been at the heart of everything we do.

House Event

On Thursday, our Houses came together for an exciting **Bridge Building Challenge**, showcasing teamwork, ingenuity, and determination. Students were tasked with designing and constructing a bridge using limited materials, testing both their engineering skills and collaborative spirit.

This event wasn't just about building bridges—it was about building character. Throughout the competition, our students demonstrated the **Lowry Values** in action:

- **Confidence** – Teams approached the challenge with self-belief, presenting bold ideas and standing by their designs.
- **Creativity** – Innovative solutions emerged as students experimented with shapes, structures, and techniques to achieve maximum strength.
- **Aspiration** – Every group aimed high, striving to create the strongest and most impressive bridge possible.
- **Resilience** – When designs didn't go as planned, students adapted quickly, learning from setbacks and pushing forward.
- **Respect** – Collaboration was key, with students listening to each other's ideas and valuing every contribution.

The atmosphere was electric, filled with laughter, problem-solving, and a healthy dose of competition. Congratulations to all participants for making this event a true celebration of character and teamwork!

Author Visit

We were thrilled to welcome James Campbell, acclaimed author and comedian, to our school for a special event with Year 7. James delivered an engaging assembly that had students laughing, thinking, and feeling inspired about the power of storytelling.

Following the assembly, Year 7 students took part in a creative writing workshop, where James shared practical tips and imaginative techniques to spark ideas and bring stories to life. His unique blend of humour and insight encouraged students to write boldly and explore their creativity with confidence.

This visit was a fantastic opportunity for our students to connect with a professional writer and deepen their love for reading and writing. A huge thank you to James Campbell for making the day so memorable!

Student Leadership in action

This week, students went head-to-head in interviews for key leadership roles. Year 7 candidates impressed during interviews for Silver Ties and Form Leaders, while shortlisted Student Council applicants in all year groups are now preparing their election campaigns. Next week, they'll present their ideas in assemblies delivering their ideas before the big vote. We can't wait to announce our new student leaders during the end-of-term celebration assemblies and look forward to the impact that they will make!

A VERY LOWRY CHRISTMAS FAIR

Enjoy hot chocolate, cookies, cakes, raffle prizes, face painting,
festive games, arts and crafts, books and lots more.

Special performances from our School Rock Band,
Production Cast and the Lowry Voices Choir.

Tuesday 9th December
4pm – 6pm

All proceeds
will go towards
our Year 11
Prom!

All donations will be greatly appreciated - so please bring some cash to spend!

Christmas Food Bank Appeal

As the festive season approaches, we're reminded that Christmas is about more than gifts - it's about kindness, compassion, and community. Sadly, for many families in our area, this time of year brings extra challenges.

We believe no one should feel alone or go without during the holidays. That's why we partner with **Community Little Hulton** for our annual **Christmas Food Bank Appeal**. This is our chance to come together and make a real difference for those who need it most.

We are asking for your help by donating non-perishable food items.

We kindly ask that items are in-date and suitable for storage (no alcohol or fresh food). Students can bring donations to their form rooms during registration.

Suggested items:

Canned goods

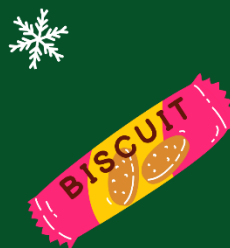

Cereals, pasta, rice

Tinned meat or fish

Tea, coffee, sugar

Biscuits and snacks

Dog and cat food

House points
available
for every
item donated!

Final Donations: Monday 15th December

Dear Families,

Salford City Council have asked us to inform families regarding The Department for Education's (DfE) Holiday Activities and Food programme (HAF).

On 22,23 and 28 and 29 December children aged 4 to 16 who are eligible for free school meals, can access a range of free activities including baking and cooking, arts and crafts, sports, music and more. All sessions include lunch.

Parents can book children on at www.salford.gov.uk/HAF up to 17 December.

Places are also available for children who don't get free school meals but meet the following criteria:

Eligibility criteria:

- assessed by the local authority as being in need, at risk or vulnerable
- young carers
- looked-after children or previously looked after children
- children with an EHC plan (education, health and care)
- children with special educational needs and/or disabilities who are not eligible for free school meals
- children who have low attendance rates at school or who are at risk of exclusion

If anyone has any difficulties making a booking please contact the Health Improvement Team via health.improvement@salford.gov.uk or 0800 952 1000 (option 2) Monday to Friday, 9am to 4.30pm.
